

JESUS SAYS NO WAR IN IRAQ

Jesus Christ was a prophet of peace and understanding for all peoples. There are several good reasons to oppose this merciless, racist, profit-hungry war. First: Jesus said "Love your enemies," and he meant even al-Qaeda. Despite being heathen Muslims, al-Qaeda deserve our compassion. They are God's creatures too. Second: The war in Iraq may make Republicans and Democrats wealthy from the oil plunder for which our soldiers die day after day, but it will turn our hearts against God's will. When we become soulless killers who cheer at the death of innocent Iraqis, we have lost our way and become agents of Satan.

Speaking of Satan, the third reason is that every day we spend in Iraq is a chance lost to crush the **God-denying Chinese**, who are truly Satan's creatures. Jesus said to love your enemies, but that does not include heretics like the godless Chinese, and He never ruled out **nuclear weapons**.

Minorities Against Environmentalism

Environmentalism is a little white lie. They say they'll save the planet, but what they really mean is, they're going to keep us out. Oh sure, it's easy for you to talk about stopping mass pollution, overfishing, and putting concrete everywhere, but that keeps people of color from getting our chance to make a fortune and retire to Florida. It took you years to build this much concrete wasteland, to pollute the planet until all the streams and oceans and air are toxic, and create mountains of landfill waste. Where's our chance? The "environmentalists" want to keep people of color poor and powerless. Screw the planet; we want our share. Environmentalism is racism, even if those tree-hugging hippies aren't wearing Klan costumes. To be a non-racist who supports minorities is to vote for unlimited economic growth and free enterprise. Anything else is a racist lie.

Immigration Invasion

The last election told us: invaders are among us. They're ignorant, lazy, smell bad and commit

most of the crimes in this country. They're genetically inferior; studies show that 85% of Republicans have an IQ of under 98. Historically, rednecks have developed no technology and have lived in mud huts. They are genetic inferiors closer to apes than humans. Stop these undesirable immigrants before they destroy our country

and breed with good, honest Democratic voters. They are not equal and they are parasites. Put on your steel-toed boots and kick out a Redneck today!
